- Colored pencils
 - Glue
 - Scissors
 - Staples
 - Printer

DURATION

1hour 30minutes

1. Create your alphabet

MISSION 1

Take a look at the room and the objects you can find around you. Choose one of them, look at it carefully and try to remember its shape. Then, close your eyes and draw the object with a charcoal pencil on a draft sheet of paper.

MISSION 2

Repeat mission 1, choosing other objects every time, until you have 5 different shapes. Then, draw 5 other imaginary shapes. Draw these first 10 shapes in the first column of the table at the next page.

MISSION 3

Take your first shape and draw it with straight lines only. Do the same with the other nine shapes. Draw these shapes in the second column.

MISSION 4

Take the first shape again and draw it with rounded lines only. Do the same with the other nine shapes. Draw these shapes in the third column.

MISSION 5

In each box of the tables, you can find in the bottom left corner the letter that corresponds to each shape. Cut out the squares, put them in alphabetical order and glue them on the alphabet page.

Congratulations!
You've created
your own alphabet!

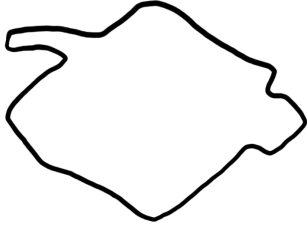

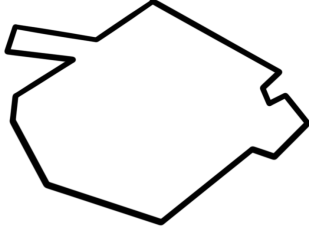

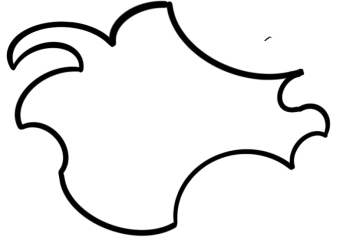

Observation of shapes

Look at the bottom left corner of each box to know which letter the shape you drew in that box will be associated with!

MISSION 8

Use these shapes to create a drawing. Be creative! Use different sizes, different colors, different spacing... Have fun!

MISSION 9

If you want to show more of your alphabet, add more letters or words on your drawing. Again, have fun and be creative on how you use the shapes, colors, sizes...

Well done! You've finished your poster! You can now proudly display it on your wall and use your new secret alphabet!
